

# Chat and Catch 5-11s

## Script

### Chat

Tell God:

Your favourite colour

What you want to eat for lunch today

Tell God a joke

How you are feeling today

The best film you have ever seen

One thing you like about your family

One thing you wish you could change about your family

A secret you've never told anyone else before

Your favourite place

One thing that makes you scared

Something you like about him (God)

One person to talk to about Jesus

Great, well done! My challenge to you is to chat to God during the day....remember he is with you and wants to hear all you have to say.

What is really great about God is that he chats back to us!

Now let's see if we can catch God chatting back to us (stay laying/sitting as before)

with older kids you could have paper and pens/crayons to write or draw what they feel

God is saying. Let's ask God a question and see if we can catch his answer.

### Catch

What game do you want to play with me?

What is one thing that makes you happy?

Who do you want me to be kind to?

Tell me something new?

What can I do to help my family?

Great! Ask a couple of children what God said to them.

(keep them sitting/laying for closing prayer)

### Closing prayer

Prayer: God, I'm so excited that you listen to us and you want to share life with each one of these kids. God, will you help them remember to share all the life stuff with you and would you send your spirit to help these kids feel how close you really are. Thanks God, we love you!
